

# American Study Abroad program

How to apply for the American short-term study in China initiative

## Study in China? Yes please!

**Did you have the pleasure or privilege of studying abroad?**

If so, you'll know that overseas study presents a whole host of academic and cultural opportunities that can change the course of your academic career.

## How can I offer a Study-abroad program in China to my students?

At Sannam S4, we want to make studying abroad as accessible to as many American students as possible, which is why we have organised a digital workshop for higher education institutions like yours, to learn all about short-term study opportunities for American students in China.

By attending our interactive workshop, you'll have the chance to learn about the scholarship opportunities offered by the Embassy of the People's Republic of China to American students, as well as detailed information regarding how your institution can work with Chinese partner institutions to obtain the scholarship.

The workshop will then be followed by an in-depth Q&A session, where you'll have the chance to ask any pressing questions you might have about the details of the program with the scholarship's organisers.

## Workshop Details

**October 14 at 2:00 PM EST**
